AGADEER™

When you want your customers to have a premium food experience

AGADEER™ AND HALAL – A STRONG PARTNERSHIP

For years, we have provided our Agadeer™ customers with premium halal poultry products. Products which combine two very important aspects: They fulfill legal domestic requirements, and strictly follow religious Islamic laws. Our halal concept is your guarantee for halal slaughtering, processing, and packaging as well as 100% avoidance of any cross contamination from non-halal sources/items.

As a result, Agadeer™ products are 100% certified by acknowledged Islamic institutes and can be readily imported into most Islamic countries – including the Middle East countries. The relevant halal certification authority appears on the packaging of the individual product.

Agadeer™ offers a range of tasty, top-quality frozen poultry products from European Class A poultry producers.
